Extracurricular Activities

- **Competitive Swimming Athlete:** Competitive swimmer for 15 years, developing leadership, discipline, resilience, and consistently performing under pressure.

Languages

- **Portuguese:** Native;
- **English:** Advanced;

About Me

Computer Engineering student passionate about web development, with expertise in HTML, CSS, JavaScript, and modern frameworks. Seeking a curricular internship to apply my knowledge and contribute to innovative projects.

Technical Skills

- **Programming Languages:** HTML, CSS, JavaScript, PHP, Python, Java, C, C++.
- **Frameworks/Libraries:** React, Laravel
- **Tools:** Git, Figma, Canvas, Docker.
- **Databases:** Sqlite, PostgreSQL.

Soft Skills

- Problem-solving abilities;
- Teamwork and communication;
- Time management and organization.

Academic Experience/Projects

AuctionPeer: Auction website made in LBAW class using Laravel, PostgreSQL and docker. Features include user authentication, real-time bidding, etc.

Spotify Clone: Developed a React-based Spotify clone with features like music playback, playlist, artist and track search, and user authentication.

Click [here](#) to see my projects.

Education

FCUP

Bachelor's in
Computer Science

2020 – 2021

Focused on foundational computer science knowledge, including:

- Programming fundamentals and algorithms;
- Mathematics for computing;
- Introduction to software development.

FEUP

Bachelor's in
Computer
Engineering

2021-Present

Combines theoretical and practical skills in areas such as:

- Web development and software engineering;
- Databases and computer networks;
- Operating systems and embedded systems.
